It is singular that the leaders of the Southern rebellion have so completely hoodwinked the people of the South that they cannot see that this raid, which they assume was in behalf of slavery, has already destroyed more than half the assessed value of that species of property. The value of slave property throughout the South has been reduced one half or more. And why? Was it because the property in negroes was imperiled by the election of a sectional candidate to the Presidency?-was it because Abraham Lincoln triumphed in the canvass of 1860? Certainly not. The Congress of the United States was against He was tied hand and foot, of Congress even for the necessary appropriations to keep the wheels of Government going. Abandoning, however, all advantage, under the lead of South Carolina (always disloyal), the cotton States were plunged into the vortex of revolution -and for what? Was it to secure more section, or to preserve more sacredly the rights of property?

The leaders of a class of desperate politicians in the South, whose ohlef business for years past had been "to fire the Southern heart," and to plunge the cotton States into revolution, triumphed over the people of their section, and led them blindfolded into this crusade against the Government, that a dissolution of the Union might follow. Already the people of the South are experienoing some of the blessed privileges of a separate Government - privileges dearly bought, and yet not half realized.

What have the people accomplished in the way of self government? They have been of politicians, who are leagued together in a general scramble for power. They are under a miserable despotism, and are fast approaching an absolute monarchy. This would be the inevitable end of a sepa. rate Government, including the secoded States. Left to their own management they are good for nothing. As slaves, they are well fed, moderately worked, comfortably clothed and well quartered. To preserve the Union | miles further south, and we should be able is to maintain the institution of slavery as it to command the entire rice and cotton was. To promptly put down this rebellion is a necessity to the South that all who are not madly blind must see.

If the war should continue, of what use can this population be to the South? If the war is ended and the Union restored, business will assume its wonted channels, and this idle class in the South again be disciplined to the field service, where their labor becomes a material part of the wealth of the

In the present war, nothing is more commendable than the fact that the generals commanding have been selected without regard to political opinions. Gen. McClel lan, now commander-in chief of the armies of the United States, was a Douglas Democrat in the late canvass, and carnestly urged his election. Notwithstanding this, the Governor of Ohio, himself a Black Republican of the deepest dye, when it became necessary to select an officer to command the Ohio regiments, had that proper regard for the lives of men which made him choose the best man to be found, without regard to political opinions. How excellent was that choice is proved by the victories of Western Virginia. How profitable it is to Kentucky is shown by the confidence the Kentuckians have in him, in consequence of the conservative course he adopted in his correspondence with Mr. Buokner, when that rebel against Kentucky commanded

the State forces. Gen. Rosecrans, whom we rank next to McClellan in military capacity, and perhaps his superior, was a warm believer and actor in the faith and principles of the good statesman of Illinois. Halleck is said, also, to have been one of that great-minded corps of patriots who resisted alike the dangerous attacks of Breckinridge and Abolitionists Halleck, whose firm and wise course, notwithstanding the bltter assaults of nitraiets, has met the approval of all, was also of the

Douglas faith. It is remarkable that an administration coming into power, as did that of Mr. Linceln, should employ so many who violently opposed his election. Major General Butler was a violent and ultra "Breckinridge" Democrat, and this is the case in all of the appointmente. They seem to have rather sought the man, than the man to have sought If there was a dead child to be buried,

The lf there is one class more guilty than another, in this wicked rebellian, it is those who have left their homes in Kentucky to join the invaders of the State. Knowing the loyalty of our people, they have fled to the camps of the enemy, to come back to properly rejected the request of Mrs. Buokconquer the will of a majority, and carry the State out of the Union. An odd suit is pending in the New York Courts. A notorious money collector, well known for the pertinacity with which he sticks to a creditor, undertook to collect a bill of a popular lawyer, more favorably known as an advocate than for his punctu ality in pecuniary matters. The collector latter, irritated by his repeated calls, offered to pay the bill, provided the latter would afterwards have his accursed features pictured and brought to him, that he might have a memerial of him The bill was paid and the collector promisel acquiescence. Forthwith, off went the sharp man of duns, and had Gurney, or some other firs'-class artist, produce a life-like copy, full size, best style, which being finished and beantlfully framed, was presented, with a bill of \$400, to the lawyer. He indignantly refused to pay, was sued in our course, and mulcted for the amount of the bill, and has since had it carried to a higher court.

Pain Killer has been a constant occupant of our house
for over two years, and a portion of the time it has been
the only medicine under our root. The almost uninterrupted health of our seven children I can attribute
to nothing else than having the means always at band
to throw of any sudden attack of dleease, caused by
undue exposure, etc. Hardly ever do I have my chidren complain of being sick, without having them alin the same sentence for Pain Killer.

For several years before I became acquainted with
the lain Killer, I had suffered a creat deal fir m an affection In my throat, thought by some physicians to be
BRONCHITIR, by others to be what is called MINISTERN' SURK THROAT; at one time It was so severe
that I was obliged to give ap preaching. Within a new
unonths after I had become acquainted with the Pain
Killer, I had another attack from that distressing compialmt. I fried my new found medicine, and to my actomi-himent and delight I found it pro-suced a wonderfully soothing effect, in a short time I was wholly relieved. Since that time I have had a number of attacks
of the same usture, and the Pain Killer has always aftorded me the relief. For the last TEN YEARS I have
hardly lott a sermon in consequence of Nine Throat!
About one year since, my wife became subject to severe
ruffering from Rhemmatism; our resort as usual, was to
the Pain Killer, which would always relieve her. When
we conid use as much of it as was necessary, we bathed
the parts affected freely, and then rubbed them well.
I have not time now to say more, as I comid with a
hearty good will, and always have uone in praise of the
Valn Killer. If this hastily written letter in commendation of Perry Davis' valuable medicine will be of any
service in introducing it into the families of the afflicted,
it will do a grace at ilberty to do with it what you
please. Very trily yours,

Gantuskan-I deem it a dut as well as a pleasure to inform you what D.z. WEAVER'S SYRUP and CE-RATE based one tor me, and hope this letter may come to the notice of persons similarly afflicted. In the year 1880 I was attacked with tetter or some kulfred disease, ou both my legs, which extended until from my knees to my leet was one raw fore. I consulted and obtained

a few applications of Dr. Weaver's Cerate or Cintment, and yon neve a permanent cure.

The CERATE has proved itself to be the best Chit ment ever invented, and where once used it has never isen known to fall of effecting a permanent cure of Gid Scree, Telter and Ringworm, Scald Head, Chilibiatro and Frest Bites, Barbers' Itch, Chappet and Crack... Hands or Live, Richtes or Piuples on the Face. And for Sore Eyes and Sore Nipples the Cerate is the only titure regarded to care. It should be kept in the house of every family.

WE ARE ENABLED HERE TO OFFER THE COMmunity a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevsil. This "Cure" expels the miasmatic potent of FEVER and AGUE from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy everyet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybod; and in billions districts, where Fever and Ague prevails, everybody should have it and use it freely best hot cure and protection. It is hoped this price will place it within the reach of everybod; and in billions districts, where Fever and Ague prevails, everybody should have it and use it freely best hot cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the spredy and cortain our of Intermittents is that it contains no quintue or mineral; consequently, it produces no quintum or other lujurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are—Nernaigla, Rhenmanism, Gont, Headache, Bilndness, Toothache, Exracin, Catarrh, As hma, Palvitation, Palmin Attection of the Spieen, Hysterics,

All of which, when originating in this cause, pnt on the intermittent type, or become periodical. This "Cura" expels the poison from the blood, and, consequently, cures them all alike. It is an invaluable protection to immigrants and persons traveling or tempora-tily residing in the malarious districts. It taken occasionally or daily while exposed to the infection, that will be excreted from the system,

ELMS HOWE JR., & S. H. ROPER'S COMBINED PATENTS. Sveight-Line Movements, Original Transverse Shuttle, Streight-Line Movements, Original Transverse Shuttle, and Feriphery Clamp Feed-Wheel.

THESE SEWING MACHINES COMBINE THE most recent improvements, are nearly noiseless when in operation, run with the greatest case and rapidity, and are better a lapted for general purposes and family use than any other. They are not liable to get out of order, are exceedingly simple, and are made expressly for real practical utility; they do every variety of sawing, from the finest woven tissue to the heaviest woolen goods, both talloring and fine leather work. Any person may learn to operate them in a very short time.

Any person may learn to operate them in a very short time.

The great difficulty with all other old-styla Machines is tee much complication, requiring so moch constant adjostment, and such an amount of mechanical skill and ingenuity to nes them to advantage, as to render them of little comparative value.

But the Sewing Machines manufactured by Greenman 4 True are not liable to these objections, as any person, or even a moment's examination, will readily discover. They will do more and better work than any other Machine ever offered to the public, making the most beautiful lock-stitch, alike on both sides, dend for an off-shand specimen of sewing npon any material you wish, and you will then see how it is done.
